SECTION 265
SELECT GRANULAR MATERIAL

PROJECT: _____
REVIEW DATE: _____

TECHNICIAN: _____
REVIEWER: _____

ACTION	YES	NO	N/A	COMMENTS
Is the proper Class of Select Granular Material being utilized?				
Is the Select Granular Material originating from the project borrow pit and if so, is the lesser unit price of Select Granular Material or Borrow being used?				
Are the quantities "used to date" being monitored for overruns?				
Select Granular Material used to backfill pipe is incidental to the item of pipe. If the Select Granular Material is hauled from the project borrow pit, no deduction will be made for the portion hauled that is utilized to backfill pipe.
